Are you the Workshop Manager we're looking for? Laynha is a well-established and reputable Aboriginal service organisation based in Yirrkala in North East Arnhem Land (near Nhulunbuy). We service Yolngu residents in 30 Homelands. The Workshop is part of the Homeland Services Unit and is responsible for repairs and maintenance to Laynha's fleet of light and heavy vehicles, as well as plant, equipment and diesel power infrastructure. Our region is one of the most beautiful and vibrant areas in Australia and has excellent facilities. It is a great place to live and work.

You have the knack of being able to communicate cross-culturally with Aboriginal people. You are confident, calm, self-resilient, independent thinking with a robust sense of humour and a willingness to learn. You aren't a "know-it-all" and you don't take yourself too seriously.

What will I need to succeed? You are a qualified mechanic (light or heavy) who has worked in a rural or remote environment. You have managed mechanical workshops and are familiar with and competent in all aspects of the business. You demonstrate sound and mature judgement in complex and difficult environments. You are persistent and maintain a high degree of self-motivation when the going gets tough.

A contract of up to five years is offered. Salary is between \$95,000-\$115,000 per annum depending on qualifications and experience. Benefits include 6 weeks' annual leave with 17.5% leave loading, subsidized modern housing, annual travel assistance allowance, relocation assistance and a commitment to professional development. **You are also able to access salary sacrifice arrangements, including increased tax free benefit of up to \$17,000 and tax free holiday accommodation and meals.**
